The quality of the product and the value proposition is what really impressed me. When you are looking to manage budgets but provide consumers with high perceived value being able to guarantee piece of mind that should they lose their keys or phone they will get in returned is a great tool in building consumer confidence. And because this product is branded for your company it truly gives the consumer the impression it was your company that looked after them. We have used ReturnMe for the past 3 years on various projects and have been extremely pleased with the both the products and the e-lead collection that they offer.
