Your CHALLENGES

Since most products are sold via 3rd parties, most manufactures never know who their customers are.

Increased manufacturing costs make it hard to add value and service without cutting in to profit margins

Our SOLUTIONS

When a customer activates your recovery tag, you can ask various survey questions and have access to reports including customer name, email and more. This allows you to drive MORE sales!

Adding Lost & Found protection is a great value-add for your customers. Build customer loyalty and brand awareness while increasing customer's happiness and safety.

Your CHALLENGES

Our SOLUTIONS

With so much competition, it's challenging to differentiate your product and increase sales

Even the attempt to ensure warranty registration by the customer is very difficult resulting in very low & disappointing customer engagement.

Increase product sales by differentiation. Customers also visit your website or social media channels post activation and get a customized HTML email.

We have helped our clients increase their warranty rates by as much as 2500% by sending customers to your warranty page post ReturnMe activation
